About Me

I am a graduate with a Bachelor's degree in Information Systems, skilled in Python programming and data analysis. My experience as an E-commerce Specialist has refined my abilities in managing online platforms and promotional activities. Although I value my e-commerce background, I aspire to pursue a career in data analysis, where I can leverage my technical and analytical skills to drive data-driven decisions and uncover valuable insights.

WORK EXPERIENCE

March 2023 - Aug 2023
Rat Production

E-Commerce Speciallist

- Manage and update product listings on e-commerce platforms.
- Implement promotional strategies to boost sales and customer engagement.
- Analyze sales data to identify trends and optimize listings.

ORGANIZATIONAL EXPERIENCE
